LSA Readiness Exam Study Guide

The Lead System Architect (LSA) Readiness Exam Study Guide helps you prepare to take the LSA Readiness Exam. The LSA Readiness Exam is a comprehensive, standardized exam that evaluates your technical readiness to enter into the Lead System Architect course.

About the candidates

Prior to enrolling in the Lead System Architect course, candidates take the LSA Readiness Exam. Candidates must pass the exam prior to enrolling in the Lead System Architect course.

LSA Readiness exam candidates hold the following Pega credentials:

- Certified System Architect (CSA)
- Certified Senior System Architect (CSSA)
- Customer Service Ready badge
- Pega Platform Ready badge

Practical on-the-job experience is a critical part of preparation for this comprehensive exam. LSA Readiness exam candidates typically have a minimum of 12 months experience working at the Senior System Architect (SSA) level. As an SSA, candidates will be exposed to many areas of Pega beyond what they learned in the class. SSAs will have had time to explore numerous Pega features and learn from the PDN, help topics, courses, and other sources.

LSA Readiness exam domains

The LSA Readiness exam contains questions covering these test domains:

- Application Design
- Case Configuration
- Data Model Configuration
- User Experience
- Security Model Configuration
- Report Configuration
- Mobile Application Configuration
- Integration
- Background Processing
- Performance

Preparing for the LSA Readiness exam

The LSA Readiness exam is a standardized exam delivered globally at Pearson VUE testing centers. Exam candidates are given 120 minutes to complete the exam.

Before challenging the LSA Readiness Exam complete all of the required courses, exams, and credentials. Following earning a CSSA credential, you are encouraged to work as a Senior System Architect for a minimum of 12 months. The exam tests knowledge learned in the classroom and experiences on the job.

Pega Academy

As an LSA Candidate, you already completed courses to prepare for the CSA and CSSA exams. Depending on the amount of time that has passed since earning your certification and the course version, you may want to review the current course (including exercises) to ensure you are familiar with the current product.

The links to following self-study courses will help you prepare:

- System Architect Essentials: <https://academy.pega.com/enroll/C-1125>
- Senior System Architect: <https://academy.pega.com/enroll/C-916>
- Pega Customer Service Foundation: <https://academy.pega.com/enroll/C-798>
- Implementing Pega Customer Service: <https://academy.pega.com/enroll/C-933>
- Pega Decisioning Consultant: <https://academy.pega.com/enroll/C-1155>

Not all Pega projects expose Senior System Architects to the same product features and releases. Therefore, Pega Academy provides self-study courses to help you fill in gaps between your unique field experience and expected product knowledge.

The following 7.3 self-study courses help you fill those gaps:

- Customizing Security Requirements in Pega Applications: <https://academy.pega.com/enroll/C-817>
- Customizing the User Experience: <https://academy.pega.com/enroll/C-865>
- Configuring Agent Processing: <https://academy.pega.com/enroll/C-859>
- Improving Application Performance: <https://academy.pega.com/enroll/C-885>
- Creating Mobile Solutions: <https://academy.pega.com/enroll/C-807>

The Pega Platform Help File

LSA candidates are expected to keep their skills current. LSA candidates need to understand the features and functions of each Pega Platform release. If you earned your CSSA on an earlier version of the Pega Platform, make sure to spend time reviewing the Platform “What’s New” in the Pega Community: https://community1.pega.com/sites/pdn.pega.com/files/help_v73/procomhelpmain.htm

Study Guidance by test domain

In addition to reviewing the courses, What's New, and help files, this section guides you to specific topics that you may find helpful to prepare for the exam. [Note: Due to shortened URLs for Help topic links, you may need to click "Allow" the first time you are accessing a link.]

Application Design

Pega Help Topics

- [Declarative processing—Concepts and Terms](#)
- [Declare Trigger rules](#)
- [Delegating a rule or data type](#)
- [Rule delegation best practices](#)

Case Configuration

Pega Help Topics

- [Pausing a Process in a case](#)
