

Client proctored – appointment required A-BE proctor user guide

Overview

Client proctored – appointment required exam delivery allows clients to set up a testing site at their own facility, using their own equipment. Clients are responsible for maintaining site configurations, setting up their own proctors, and running the testing site. The Pearson VUE Browser Lock secure browser launches Exam Launchpad. Exams are then delivered via the Athena—Browser Edition test driver.

This document covers the procedures proctors will follow to administer a Client proctored – appointment required testing event.

For a complete understanding of how to install and configure all the software and site settings, see the [Client proctored – appointment required A-BE admin user guide](#).

Before an event

Run Connection Check from Connect portal

Prior to running any IBT exam on an exam delivery workstation, you must verify that the site can connect to the Internet and successfully deliver exams using the Athena—Browser Edition test driver. The **Connection Check** application allows users to verify that they can connect to the Internet and successfully deliver exams using the Athena—Browser Edition test driver. The connection check performs two tasks. A speed test determines the upload and download speeds of your current internet connection. The connection test verifies connectivity to the servers that are used to deliver an exam. You must successfully pass both the speed test and the connection test to deliver an Athena—Browser Edition exam on the Pearson VUE Browser Lock secure browser or the candidate may encounter issues with delivering the exam.

1. Open a web browser window and navigate to the **Connect** portal:
<https://connect.pearsonvue.com/Connect/#/authenticate>
2. Enter your **Username**, **Password**, and **Site ID**, and select **Log in**.

3. Select the **Connection Check** menu in the left navigation menu.
4. Connection Check opens. Select the **Run test** button.

The connection check performs two tasks:
runs a speed test and a connection test.

- The speed test determines the upload and download speeds of your current internet connection.
- The connection test verifies connectivity to the servers that are used to deliver an exam.

Your **site must pass both the speed test and the connection test** to successfully deliver an Athena—Browser Edition exam.

5. The speed test displays a progress bar as the application is running.

If the speed test and the connection test were both successful, a message identifies the estimated number of Athena—Browser Edition exams that can be delivered concurrently from your location.

A Test Status of **Complete** for the **Speed** and **Connection Test** indicates that the test was able to successfully evaluate bandwidth and connectivity.

- **Speed test** – A Failure means that the delivery of an exam may encounter issues with performance or may be unable to deliver successfully.
- **Connection test** – A Failure means that connectivity with the delivery servers could not be established.

If you receive a message stating that you cannot deliver any Athena—Browser Edition exams, this indicates that the Speed/Connection tests have failed and Athena—Browser Edition exams cannot be delivered from your location.

6. If your connection check fails, see the Connection Check online help for advice on troubleshooting a failed connection check. Select the **Help** button on the Connect ribbon at the top of the window.

Create a proctoring event

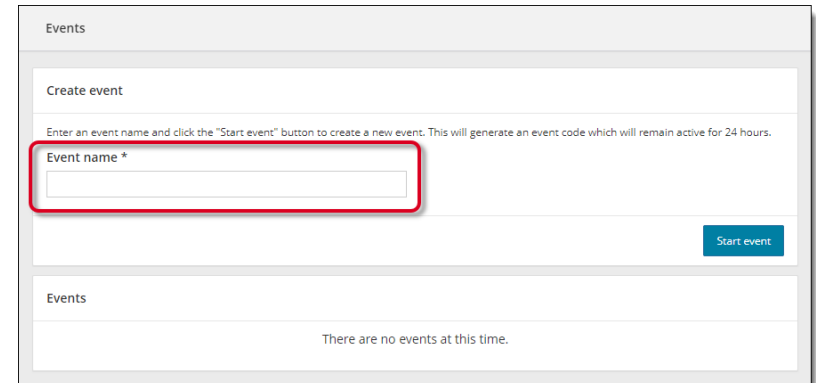

Prior to a testing event proctors must create an event in the **Proctoring** application in the Connect portal. Events are used to admit candidates for their exams on testing day. The Proctoring application allows proctors to create the event, view the event, view the candidate and exam details, admit candidates for the event, and unlock exams for the candidate to begin testing. Events may be reused for multiple testing days.

1. Select the **Proctoring** menu in the left navigation pane.
2. The **Events** dashboard opens.

If this is the first time a user at the site has worked with the Proctoring application, no events are listed on the Events dashboard.

Once any proctor at the site creates an event, the events are listed by Event creation date. The events are listed in the most recently created order to the oldest event created order. Users will see all events that have been created for the site by any proctor.

3. On the Events dashboard, enter an **Event name** in the **Create event** section.

The screenshot shows the 'Events' dashboard. At the top, there's a 'Create event' section. It contains a text input field labeled 'Event name *' which is highlighted with a red rectangular border. Below the input field is a blue button labeled 'Start event'. Above the input field, there is a small instruction: 'Enter an event name and click the "Start event" button to create a new event. This will generate an event code which will remain active for 24 hours.' Below the 'Create event' section, there is an 'Events' section which currently displays the message 'There are no events at this time.'

Note

- Event names can be a max of 50 characters. If you exceed this limit a warning message reminds you the entry must be 50 characters or less.
- Event names can be duplicated because each event is given an event creation date and time stamp that makes it unique.
- If you have many proctors for your site, you may recommend that proctors include their name as part of the event name. Proctors can see the list of all events for the site, but the events do not indicate which proctor created the event. Adding the proctor's name will make it easier for the proctors to easily see which proctors created the event.

4. Select the **Start event** button. The event details page is displayed.

The screenshot displays the 'Tahoe Conference' event details page. At the top, there's a navigation bar with '< Events' and 'Tahoe Conference'. Below this, the 'Event information' section includes an 'Event name' of 'Tahoe Conference' and an 'Event date' of 'October 14, 2022'. The 'Event code' section shows an 'Active event code' of 'ezch7hvf09' and an 'Event code expires' date of 'November 15, 2022 4:28 PM'. The 'Admissions' tab is selected, showing a 'Candidate admissions' section with a 'Search options' dropdown and a 'Refresh admission roster' button. Below this is a table with columns: 'Candidate name', 'Email address', 'Start time', 'Exam', 'Accommodations', and 'Status'. The table is currently empty. At the bottom, there's a '50 per page' dropdown and a '1 - 0 of 0' indicator.

- The event is assigned an **event creation date and time**.
- The event is assigned an **event code** that is active for 24 hours.
- Under the Admissions tab, the **candidate admissions roster** is empty until a candidate registers for an exam. It contains a roster of all candidates that have registered for an exam to be taken at your site on the current day.

Note

- Event codes are used to unlock candidate exams. Candidates enter the event code during the testing process allowing proctors to unlock the exam from a single, centralized location.
- Event codes remain active for 24 hours from the moment they are generated.
- It is the proctor's responsibility to communicate this event code to the candidate at the event. It is up to the proctor at the event to determine the best method of communicating the code to the candidates. Possible options include:
 - Write the event code on a whiteboard in the exam delivery room.
 - Print the event code on a slip of paper and hand it to the candidate as they enter the exam delivery room and collect it after candidates have entered it into their system.

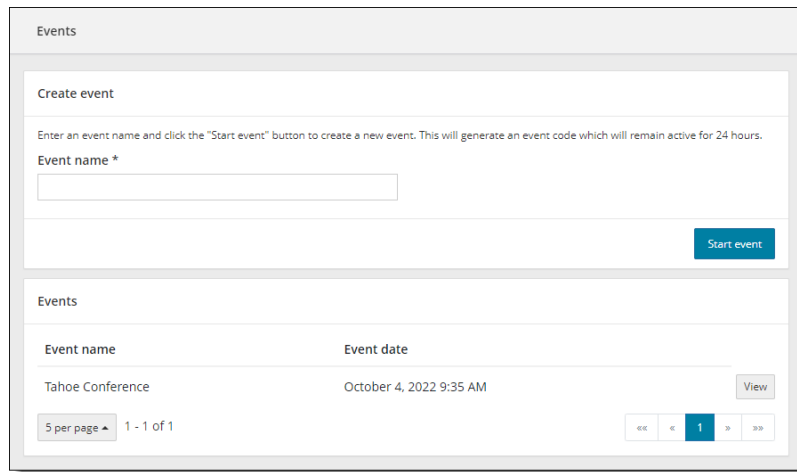

Note

- If an event code is compromised in any way, or if proctors want to continue using an event for more than the 24 hours the event code is valid, proctors may regenerate a new event code which is valid for 24 hours from the time it was regenerated. When a new event code is generated, the previous event code expires. Candidates may no longer be admitted with an expired event code. The event is now active for 24 hours based on the active event code.

5. Select the **Events** button  at the top of the Event Details page.

The Events dashboard is displayed. The newly created event is listed at the bottom of the page in the Events list. If you have created more than one event, the events are listed in the most recently created to the oldest event created order. The Event date column is the date and time the event was created. The event code determines when the event is active and exam registrations may be unlocked for testing.

The screenshot shows the 'Events' dashboard. At the top, there is a 'Create event' section with a text input field for 'Event name *' and a 'Start event' button. Below this is an 'Events' list table. The table has two columns: 'Event name' and 'Event date'. The first row in the table shows 'Tahoe Conference' and 'October 4, 2022 9:35 AM'. There is a 'View' button next to the event name. At the bottom of the table, there is a pagination control showing '5 per page' and '1 - 1 of 1'.

Event name	Event date
Tahoe Conference	October 4, 2022 9:35 AM

Event day

Launch the secure browser

Prior to the testing event, proctors must download the secure browser on every exam delivery workstation. Always download the secure browser from the website to ensure you have the most current version of the secure browser for the testing day.

Note

Proctors must launch the secure browser on every exam delivery workstation. The Candidate Search page should be ready for every candidate as they are seated at the exam delivery workstation. Proctors may alternatively place the executable on the exam delivery desktop and ask candidates to double-click the executable to launch the secure browser.

Note

Any workstation used to deliver a candidate exam must use the Pearson VUE Browser Lock secure web browser to launch the exams.

As a best practice you should **save any open files** and **close all open applications** prior to launching an exam.

1. On the **Exam delivery** workstation, launch an Internet browser and navigate to the **Client proctored PVBL landing page** on the Pearson VUE website.

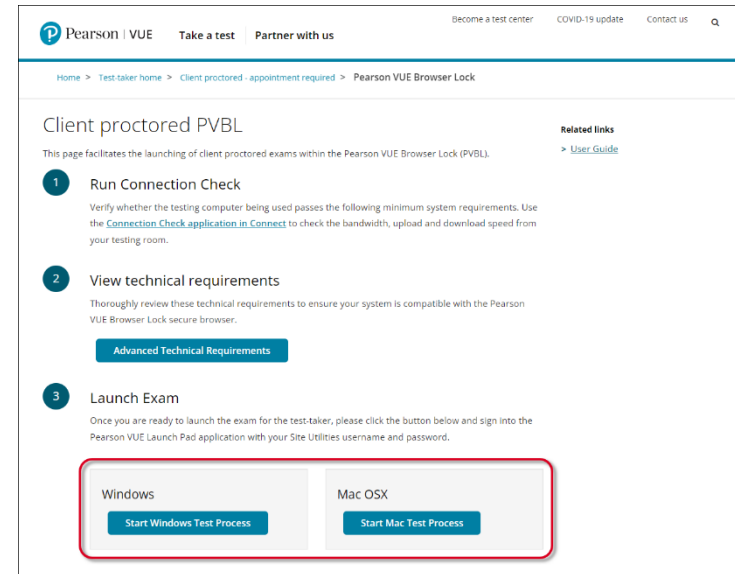

<https://home.pearsonvue.com/cp/pvbl>

Exception:

If you have a client specific landing page navigate to the Client proctored – appointment required landing page:

<https://home.pearsonvue.com/<clientname>/cp>

2. Locate and select the **Start <OS> Test Process** button that matches your operating system.

3. Open **Windows Explorer** and navigate to the **Downloads** folder. Double-click **CTC.exe** to launch the Pearson VUE Browser Lock secure browser.

Note

Always download the secure browser off the website for that day's event rather than saving it to the local machine. This ensures the current version of the secure browser is always used for exam delivery.

4. Read the Software License Agreement. Select the **Accept** button.
5. The **Exam Launchpad** opens in a secure browser.

The screenshot shows the Pearson | VUE Candidate Search interface. At the top, there is a Pearson | VUE logo and a language selector set to 'English - United States'. Below this is a 'Candidate Search' section with the note 'All fields required'. The form contains four input fields: 'First name', 'Last name', 'Email (used to register for your exam)', and 'Event code'. A 'Submit' button is located at the bottom right of the form.

Verify event code is active

Proctors must provide the event code to candidates on the day of the testing event. If the event was created more than 24 hours before the event, or if the current event code will expire before all candidates finish their exam, you must generate a new event code.

1. Open a web browser window and navigate to the **Connect** portal:
<https://connect.pearsonvue.com/Connect/#/authenticate>

2. Locate your testing event in the Events list and select the event's **View** button.

The screenshot shows the 'Events' section of the interface. At the top, there is a 'Create event' section with a text input for 'Event name' and a 'Start event' button. Below this is a table of events. The table has two columns: 'Event name' and 'Event date'. The first row shows 'Tahoe Conference' and 'October 4, 2022 9:35 AM'. A 'View' button is located to the right of the event date, and it is highlighted with a red box. At the bottom of the table, there is a pagination control showing '5 per page' and '1 - 1 of 1'.

3. The event information and the current code are listed at the top of the event page. If you need to create a new event code, select the **Regenerate event code** button.

The screenshot shows the 'My on site event' page. At the top, there is a breadcrumb navigation showing '< Events' and 'My on site event'. Below this is a section titled 'Event information' with an 'Edit' button. The section contains two rows: 'Event name' with the value 'My on site event' and 'Event date' with the value 'October 6, 2022'. Below this is a section titled 'Event code' with a 'Regenerate event code' button, which is highlighted with a red box. The section contains two rows: 'Active event code' with the value 'yzwdyn8kq!' and 'Event code expires' with the value 'October 7, 2022 11:27 AM'.

4. Select **Yes** to confirm you want to regenerate the event code. A message notifies you that the new event code has been successfully created and the previous code has been disabled. The new event code is active for an additional 24 hours.
5. Give the event code to the candidate either on a white board in the room or on a piece of paper. Candidates must enter the event code to allow the proctor to unlock their exam.

Admit candidates without photo capture

Admission staff or Proctors with the **May admit candidates and deliver exams** use the **Proctoring** application to admit candidates for their exams. When candidates register for an exam at your testing site, all candidates registered for that day's testing appear in all the events for the site. This allows you to use multiple proctors to admit candidates for exams. You may only admit candidates that are scheduled for the current day. If the client does not require a photo of the candidate, the **Admit** button appears on the Candidate admissions page. If the button says **Take photo**, see [Admit candidates with photo capture](#).

1. Select the event's **View** button to display the event's Admissions tab.

The event details page lists all candidates that have registered for exams at your testing site on

the Admissions tab at the bottom of the page. Exam registrations are listed in ascending order by exam start time.

The screenshot displays the Proctoring application interface. At the top, there's a 'Menu' button and a 'Help' icon. Below this, the 'Events' tab is selected, showing 'Tahoe Conference'. The 'Event information' section includes 'Event name: Tahoe Conference' and 'Event date: October 14, 2022'. The 'Event code' section shows 'Active event code: ezc7hvf09', 'Event code expires: November 15, 2022 4:28 PM', and 'Disabled event code(s): fq0w0r7hyr'. A 'Regenerate event code' button is present. The 'Admissions' tab is active, showing a 'Candidate admissions' table. The table has columns for 'Candidate name', 'Email address', 'Start time', 'Exam', 'Accommodations', and 'Status'. It lists five candidates: Jack Jones, Eve Fyre, Marcus King, Bailey Sanborn, and selva prabu. Each row has an 'Admit' button and a 'View details' button. A 'Refresh admission roster' button is at the top right of the table. A search bar is at the top left of the table. The bottom of the page shows a copyright notice: 'Copyright 1996-2024 Pearson Education Inc. or its affiliate(s). All rights reserved. pvuecopyright@pearson.com' and links for 'Terms' and 'Privacy'.

Candidate name	Email address	Start time	Exam	Accommodations	Status
Jack Jones	jackjones@abc.com	March 15, 2024 07:00 AM	E2EExam-proctored	No	Not admitted
Eve Fyre	eve.fyre@auto.com	March 15, 2024 08:00 AM	E2EExam-proctored	No	Not admitted
Marcus King	MarcusK@123.com	March 15, 2024 08:00 AM	E2EExam-proctored	No	Not admitted
Bailey Sanborn	bailey.sanborn@pearson.com	March 15, 2024 09:15 AM	E2EExam-proctored	No	Not admitted
selva prabu	selvaprabu@test.com	March 15, 2024 09:30 AM	RM_3_ZFP: IBT@ZFP Only	No	Not admitted

Client proctored - appt required A-BE proctor user guide

- As each candidate arrives, check their ID, and locate the desired candidate in the Admissions list. You can use the **Search** feature or the **Advanced filter** fields.
- You can select the **View details** button to see the exam details for the candidate.

The screenshot shows the 'Admissions' tab with a table of candidate admissions. The table has columns for Candidate name, Email address, Start time, Exam, Accommodations, and Status. The row for Marcus King is highlighted, and the 'View details' button next to it is circled in red.

Candidate name	Email address	Start time	Exam	Accommodations	Status
Jack Jones	jackjones@abc.com	March 19, 2024 07:00 AM	E2EExam: E2EExam-proctored	No	Not admitted
Sergio Gonzalez	sergio.gonzalez@myco.com	March 19, 2024 07:00 AM	E2EExam: E2EExam-proctored	No	Not admitted
Selena Gomez	selena.gomez@aco.com	March 19, 2024 07:30 AM	PhotoSR: Photo Score Report Testing	No	Not admitted
Eve Fyre	eve.fyre@auto.com	March 19, 2024 08:00 AM	E2EExam: E2EExam-proctored	No	Not admitted
Marcus King	MarcusK@123.com	March 19, 2024 08:00 AM	E2EExam: E2EExam-proctored	No	Not admitted

The **Candidate details** page identifies the candidate's name, email address, any accommodations the candidate has for the exam, the Registration ID, the exam the candidate is registered to take, the exam start time, the exam length, and the current status of the exam (Not admitted, Admitted, Unlock requested, Exam in Progress, or Completed).

The screenshot shows the 'Candidate details' page for Marcus King. The page displays candidate information and exam details. The 'Admit' button is highlighted with a blue box.

Candidate name	Exam
Marcus King	E2EExam-proctored

Email address	Start time
MarcusK@123.com	March 19, 2024 08:00 AM

Accommodations	Exam length
None	5 undefined minutes

Registration ID	Status
6838089	Not admitted

- You may admit the candidate for the exam by selecting the **Admit** button on this page, or by selecting the **Previous** button and selecting the **Admit** button on the Admissions tab.

The candidate registration on the Admissions tab is now listed as **Admitted** and the **Admit** button now says **Undo**.

The screenshot shows the 'Admissions' tab with the same table of candidate admissions. The row for Marcus King is now highlighted, and the 'Admitted' status and 'Undo' button are circled in red.

Candidate name	Email address	Start time	Exam	Accommodations	Status
Jack Jones	jackjones@abc.com	March 19, 2024 07:00 AM	E2EExam: E2EExam-proctored	No	Not admitted
Sergio Gonzalez	sergio.gonzalez@myco.com	March 19, 2024 07:00 AM	E2EExam: E2EExam-proctored	No	Not admitted
Selena Gomez	selena.gomez@aco.com	March 19, 2024 07:30 AM	PhotoSR: Photo Score Report Testing	No	Not admitted
Eve Fyre	eve.fyre@auto.com	March 19, 2024 08:00 AM	E2EExam: E2EExam-proctored	No	Not admitted
Marcus King	MarcusK@123.com	March 19, 2024 08:00 AM	E2EExam: E2EExam-proctored	No	Admitted

5. Select the **Previous** button to return to the Candidate admissions roster.
6. If you inadvertently admitted the wrong candidate, select the **Undo** button and the status changes to **Not admitted** and the button changes to Admit.
7. Select the **Refresh admission roster** button frequently to ensure any new exam registrations appear on the page.

Admit candidates with photo capture

Admission staff or Proctors with the **May admit candidates and deliver exams** use the Proctoring application to admit candidates for their exams. When candidates register for an exam at your testing site, all candidates registered for that day's testing appear in all the events for the site. This allows you to use multiple proctors to admit candidates for exams. You may only admit candidates that are scheduled for the current day. If the client requires a photo of the candidate, the **Take photo** button appears on the Candidate admissions page. If the button says **Admit**, see [Admit candidates without photo capture](#).

1. Select the event's **View** button to display the event's Admissions tab.

The event details page lists all candidates that have registered for exams at your testing site on the Admissions tab at the bottom of the page. Exam registrations are listed in ascending order by exam start time.

The screenshot shows the 'Proctoring' application interface. At the top, there's a 'Menu' button and a 'Help' icon. Below that, the 'Events' tab is selected, showing 'Tahoe Conference'. The 'Event information' section displays the event name 'Tahoe Conference' and the event date 'October 14, 2022'. The 'Event code' section shows the active event code 'ezch7hvf09', the event code expires 'November 15, 2022 4:28 PM', and the disabled event code(s) 'fq0w0r7hyr'. Below this, the 'Admissions' tab is selected, showing a list of candidate admissions. The table has columns for Candidate name, Email address, Start time, Exam, Accommodations, Status, and a 'Take photo' button. The table lists five candidates: Roody Roodie, Brad Hoek, Tommy Brezenski, James Sanborn, and Vasundhara Johnson. Each candidate has a 'Take photo' button and a 'View details' button. At the bottom, there's a '5 per page' dropdown and a '6 - 10 of 18' indicator.

Candidate name	Email address	Start time	Exam	Accommodations	Status	Take photo	View details
Roody Roodie	roodie@test.com	March 15, 2024 09:30 AM	RM_3_ZFP: IBT@ZFP Only	No	Not admitted	Take photo	View details
Brad Hoek	brad@ww.com	March 15, 2024 09:45 AM	MinSpec-ZFP-TDFT: Zero Footprint TDFT	No	Not admitted	Take photo	View details
Tommy Brezenski	tommy.brezenski@wenhen123.com	March 15, 2024 10:45 AM	RM_3_ZFP: IBT@ZFP Only	No	Not admitted	Take photo	View details
James Sanborn	james.sanborn@pearson.com	March 15, 2024 11:15 AM	E2EExam: E2EExam-proctored	No	Not admitted	Take photo	View details
Vasundhara Johnson	vasundhara.johnson@hotmail.com	March 15, 2024 11:45 AM	E2EExam: E2EExam-proctored	No	Not admitted	Take photo	View details

- As each candidate arrives, check their ID, and locate the candidate in the admissions list. You can use the **Search** feature or the **Advanced filter** fields.
- You can select the **View details** button to see the exam details for the candidate.

The screenshot shows the 'Admissions' tab with a table of candidate admissions. The table has columns for Candidate name, Email address, Start time, Exam, Accommodations, and Status. Three candidates are listed: Yvonne Strebel, Heidi Santiago, and Mark Poole. The 'View details' button for Heidi Santiago is highlighted with a red box.

Candidate name	Email address	Start time	Exam	Accommodations	Status
Yvonne Strebel	ystrebel@zh.wmc.ch	March 19, 2024 12:15 PM	MinSpec-ZFP-TDFT: Zero Footprint TDFT	No	Not admitted
Heidi Santiago	heidie@santiago.com	March 19, 2024 01:00 PM	MinSpec-ZFP-TDFT: Zero Footprint TDFT	No	Not admitted
Mark Poole	mark.poole@myco.com	March 19, 2024 02:30 PM	MinSpec-ZFP-TDFT: Zero Footprint TDFT	No	Not admitted

The view Candidate details page identifies the candidate's name, email address, any accommodations the candidate has for the exam, the Registration ID, the exam the candidate is registered to take, the exam start time, the exam length, the current status of the exam (Not admitted, Admitted, Unlock requested, Exam in Progress, or Completed), and the Candidate photo status

(Photo not taken if you have not admitted the candidate for the exam).

The screenshot shows the 'Candidate details' page for Heidi Santiago. It displays fields for Candidate name, Email address, Registration ID, Exam, Start time, Exam length, and Status. The 'Take photo' button is visible in the bottom right corner.

Candidate details	Exam	Candidate photo
Candidate name Heidi Santiago	Zero Footprint TDFT	Photo not taken
Email address heidie@santiago.com	Start time March 19, 2024 01:00 PM	
Accommodations None	Exam length 15 minutes	
Registration ID 6838071	Status Not admitted	

- You may admit the candidate for the exam by selecting the **Take photo** button on this page, or by selecting the **Previous** button and selecting the **Take photo** button on the Admissions tab.

The candidate photo capture page appears.

The screenshot shows the 'Candidate photo capture' page. It includes instructions for taking a photo, a camera preview showing a candidate, and a 'Take photo' button. There is also a checkbox for 'Cannot take a photo for religious or equipment reasons'.

Before you can admit the candidate for their exam, you are required to take a photo of them to verify their identity.

Instructions

- Position the candidate against a plain background with their head inside the frame.
- Have them look directly at the camera with a neutral expression.
- Ensure your photo is well-lit and in focus.

Example

HD Pro Webcam C920 (C)

Take photo

☐ Cannot take a photo for religious or equipment reasons.

Client proctored - appt required A-BE proctor user guide

5. You must take a photo of the candidate to verify their identity. You may use an external camera, or by using the camera on the laptop.
6. Position the candidate against a plain background with their head inside the dotted circle.
7. Have the candidate look directly at the camera with a neutral expression.
8. Select the **Take photo** button.
9. The photo is captured. If you did not capture a good photo, you may select the **Retake photo** button and take the photo again.

Candidate photo capture

Before you can admit the candidate for their exam, you are required to take a photo of them to verify their identity.

Instructions

- Position the candidate against a plain background with their head inside the frame.
- Have them look directly at the camera with a neutral expression.
- Ensure your photo is well-lit and in focus.

Example

Retake photo

☐ Cannot take a photo for religious or equipment reasons.

Cancel Admit

10. If there are religious objections to having a photo taken, or if there are issues with the camera preventing you from taking a photo, select the **Cannot take a photo for religious or equipment reasons** check box.

Candidate photo capture

Before you can admit the candidate for their exam, you are required to take a photo of them to verify their identity.

Instructions

- Position the candidate against a plain background with their head inside the frame.
- Have them look directly at the camera with a neutral expression.
- Ensure your photo is well-lit and in focus.

Example

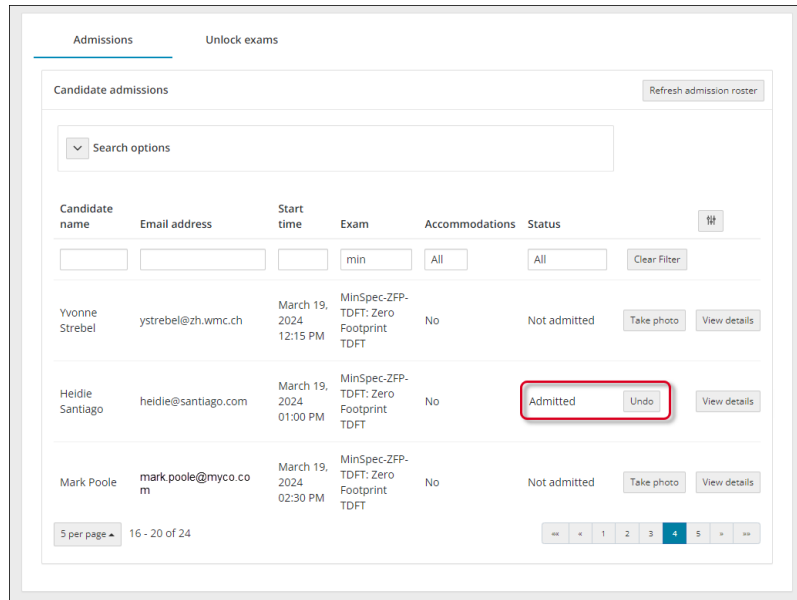

Retake photo

☒ Cannot take a photo for religious or equipment reasons.

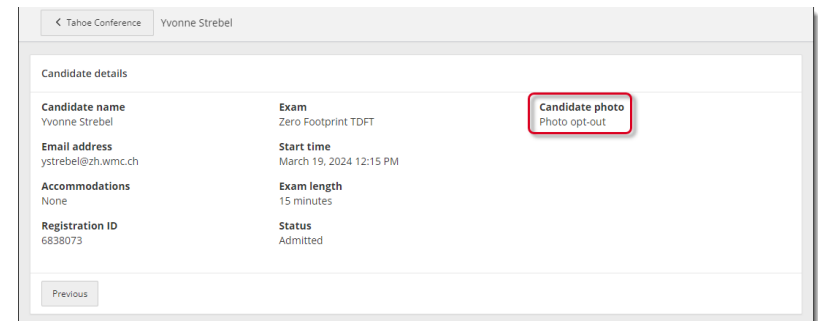

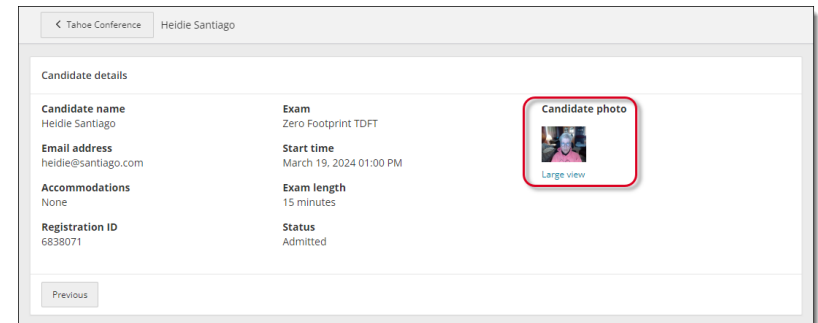

Cancel Admit

11. Select the **Admit** button.

The candidate registration on the Admissions tab is now listed as Admitted and the Take photo button now says Undo.

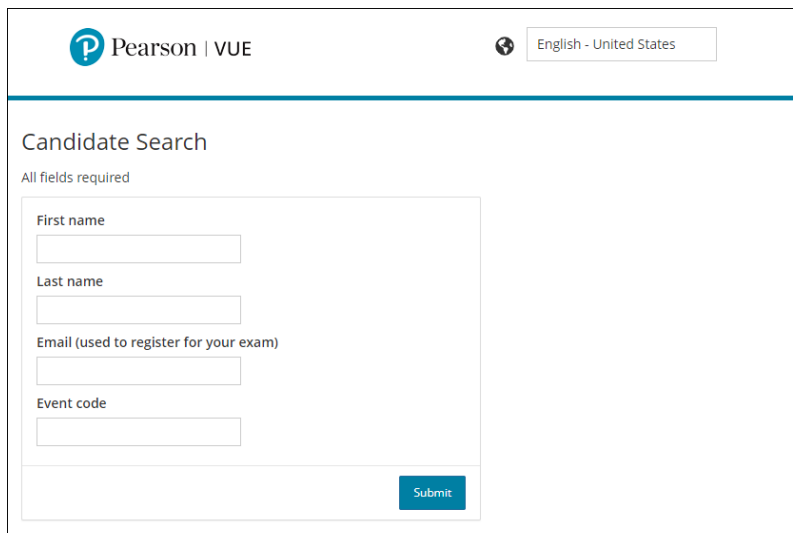

Select the **View details** button for a candidate admitted with photo capture enabled. The candidate photo is displayed, or Photo opt-out is displayed.

12. Select the **Previous** button to return to the Candidate admissions roster.
13. If you inadvertently admitted the wrong candidate, select the **Undo** button and the status changes back to **Not admitted** and the button changes to back to **Take photo**.
14. Select the **Refresh admission roster** button frequently to ensure any new exam registrations appear on the page.

Seat candidate for exam

1. Once you have admitted the candidate, you must escort the candidate to the exam delivery room and seat them at an exam delivery workstation. Ensure the **Secure Browser** is open to the **Candidate Search** page for the candidate.
2. Candidate enters their **First name**, **Last name**, **Email**, and the **Event code** you supplied them and selects **Submit**.

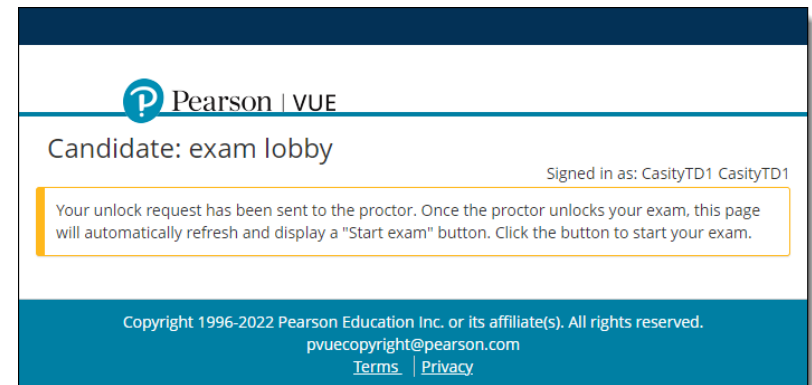

The screenshot shows the Pearson VUE Candidate Search page. At the top, there is a Pearson logo and the text 'Pearson | VUE'. To the right, there is a language selector showing 'English - United States'. Below this, the page title is 'Candidate Search'. Underneath the title, it says 'All fields required'. There are four input fields: 'First name', 'Last name', 'Email (used to register for your exam)', and 'Event code'. A blue 'Submit' button is located at the bottom right of the form area.

Note

The **First name**, **Last name**, and **Email** fields are not case sensitive, but candidates must enter the name and email exactly as it was created in the system when they registered for the exam.

The secure browser Candidate: exam lobby page notifies the candidate that the unlock request has been sent to the proctor. Once the proctor unlocks the exam the candidate may begin their exam.

The screenshot shows the Pearson VUE Candidate: exam lobby page. At the top, there is a Pearson logo and the text 'Pearson | VUE'. Below this, the page title is 'Candidate: exam lobby'. To the right of the title, it says 'Signed in as: CasityTD1 CasityTD1'. A yellow box contains the text: 'Your unlock request has been sent to the proctor. Once the proctor unlocks your exam, this page will automatically refresh and display a "Start exam" button. Click the button to start your exam.' At the bottom, there is a blue footer with the text: 'Copyright 1996-2022 Pearson Education Inc. or its affiliate(s). All rights reserved. pvuecopyright@pearson.com Terms Privacy'.

Unlock exam

Once the candidate submits their personal information and the event code, the Admissions tab lists the exam status as **Unlock requested**. Proctors must unlock the exam on the **Unlock exams** tab.

1. In the Proctoring application, select the **Unlock exams** tab.
2. Select the **Refresh candidate roster** button to ensure you see the current list of candidates waiting to have their exams unlocked.

The Unlock exams tab includes the Candidate photo if the candidate requires photo capture for admitting the candidate for an exam.

- When photo capture is not required, the Candidate photo column displays **Not required**.
- When photo capture is required, the Candidate photo column displays the **candidate photo** or **Photo opt-out**.

- To unlock a single candidate exam, the Proctor selects the desired candidate's **Unlock** button. To unlock all candidates waiting to start their exams, select the checkbox to the left of the Candidate name header. This selects all the candidate checkboxes. Select the **Group Unlock** button.

If you unlocked a single exam the Exam status on the **Unlock exams** tab changes to **unlocked** and a message notifies you the exam has been unlocked. The next time the candidate roster is refreshed, the unlocked exam is removed from the Unlock exams tab and only locked exams are listed.

If you group unlocked a bunch of exams, the exams are unlocked and the unlocked exams are no longer displayed on the Unlock exams tab.

The Exam status on the **Admissions tab** changes to **Exam in progress** for unlocked exams.

- The secure browser now changes to **Candidate: ready to begin exam**. The candidate selects the **Start Exam** button.

- Candidate completes the exam.

Once the candidate completes the exam, the **Admissions** tab lists the exam status as **Complete**.

Remove secure browser

Once all testing is completed for the day, Pearson VUE recommends you remove the secure browser from each exam delivery workstation.

- Open a **Windows Explorer** window and navigate to the **Downloads** directory.
- Locate the **CTC.exe** file and **Delete** it.
