</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Task</th>
<th>Knowledge</th>
</tr>
</thead>
</table>
| T1. Review referral information to determine the need for psychoeducational evaluation. | K1. Knowledge of effects of human diversity and environmental factors on learning and cognitive, social, emotional, and behavioral functioning in educational settings.  
K2. Knowledge of methods to develop targeted referral questions.  
K3. Knowledge of situations that require referral to another service provider.  
K5. Knowledge of developmental milestones of typical cognitive, physiological, and social-emotional development.  
K7. Knowledge of the effects of psychological conditions on learning and social-emotional functioning.  
K8. Knowledge of the effects of medications on learning and behavior. |
| T3. Identify referral questions to guide the psychoeducational assessment process. | |
K5. Knowledge of developmental milestones of typical cognitive, physiological, and social-emotional development.  
K8. Knowledge of the effects of medications on learning and behavior.  
K25. Knowledge of genetic influences on educational and vocational functioning.  
K26. Knowledge of the impact of family history on educational and vocational functioning.  
K27. Knowledge of the impact of traumatic events and other stressors on educational and vocational functioning. |
| T4. Assess the need to refer client for concurrent evaluation in related areas. | K3. Knowledge of situations that require referral to another service provider.  
K7. Knowledge of the effects of psychological conditions on learning and social-emotional functioning. |
### 0102. ASSESSMENT PLANNING (4%)

| T5. Develop hypotheses regarding client's needs in order to formulate a psychoeducational assessment plan. | K1. Knowledge of effects of human diversity and environmental factors on learning and cognitive, social, emotional, and behavioral functioning in educational settings.  
K2. Knowledge of methods to develop targeted referral questions.  
K5. Knowledge of developmental milestones of typical cognitive, physiological, and social-emotional development.  
K7. Knowledge of the effects of psychological conditions on learning and social-emotional functioning.  
K8. Knowledge of the effects of medications on learning and behavior.  

---

### 0103. OBSERVATION, INTERVIEW, AND INFORMAL ASSESSMENT (6%)

| T6. Observe client’s behavior in natural settings as part of assessing the client’s functioning in educational and vocational settings. | K1. Knowledge of effects of human diversity and environmental factors on learning and cognitive, social, emotional, and behavioral functioning in educational settings.  
K9. Knowledge of factors that indicate the need to conduct a functional behavioral analysis (FBA).  
K10. Knowledge of methods to design an effective observational assessment.  

| T7. Interview client and other individuals familiar with client as part of assessing the client's functioning in educational and vocational settings. | K17. Knowledge of techniques for interviewing culturally and linguistically diverse populations.  
K20. Knowledge of techniques for interviewing individuals with special needs to assess client issues related to learning processes.  
K22. Knowledge of techniques for interviewing school personnel to assess client issues related to learning processes.  
K23. Knowledge of how to effectively work with interpreters during interviews.  
K37. Knowledge of how to establish rapport with client, parents, and teachers. |
<table>
<thead>
<tr>
<th>T8. Use informal assessment procedures as part of assessing the client's functioning in educational and vocational settings.</th>
<th>K24. Knowledge of informal assessment procedures to obtain relevant information about client’s history (e.g., grade reports, medical records, background questionnaires, etc.). K49. Knowledge of the effects of human diversity factors on the assessment process and validity of test scores.</th>
</tr>
</thead>
</table>
### 0104. STANDARDIZED ASSESSMENTS (6%)

K31. Knowledge of information that can be obtained from scores on assessment measures.  
K32. Knowledge of the reliability and validity of assessment measures.  
K33. Knowledge of standardized administration procedures for assessment measures.  
K34. Knowledge of scoring and reporting procedures for assessment measures.  
K35. Knowledge of the effects of examiner characteristics (e.g., eye contact, vigilance, flexibility, self-awareness, familiarity, etc.) on client’s motivation and test scores.  
K36. Knowledge of the effects of client characteristics (e.g., age, ability level, etc.) on test administration procedures.  
K37. Knowledge of how to establish rapport with client, parents, and teachers.  
K38. Knowledge of information that can be obtained through observation of client presentation, affect, and behavior during test administration.  
K39. Knowledge of the effects of physical environment on test administration and validity of test scores.  
K40. Knowledge of test administration procedures for clients with special needs.  
K42. Knowledge of the impact of observed testing behavior on validity of test scores.  
K45. Knowledge of the theoretical bases of assessment measures.  
K46. Knowledge of basic psychometric concepts and procedures.  
K48. Knowledge of the impact of factors related to testing conditions on validity of test scores.  
K49. Knowledge of the effects of human diversity factors on the assessment process and validity of test scores.  
K50. Knowledge of the effects of physical ability on the assessment process and validity of test scores. |
### 0105. INTERPRETATION AND DIAGNOSIS (9%)

<table>
<thead>
<tr>

LICENSED EDUCATIONAL PSYCHOLOGIST EXAMINATION
OUTLINE SAMPLE QUESTIONS

To follow are examples of the format and structure of items you may encounter during the examination. Each multiple-choice item requires the candidate to select the correct answer from among the four options provided.

1. What test should be used to obtain a standard score of the intellectual functioning of an 8-year-old who is unable to talk and has limited hand movements?
   a. Raven’s Progressive Matrices
   b. Leiter International Performance Scale
   c. Kaufman Assessment Battery for Children
   d. McCarthy Scales of Children’s Abilities

2. Why should parents be given detailed feedback following the completion of a psychological assessment of their child?
   a. To provide the rationale for a special education placement decision
   b. To encourage parents to take a more active role in their child’s education in the future
   c. To explain how social and emotional functioning is related to academic achievement
   d. To maximize intervention success through increasing participation with recommendations

3. A right-handed 14-year-old student with a seizure disorder and no other health problems recently had a neuropsychological evaluation. The student’s school asked an LEP to review the evaluation report and help them utilize the information. The report indicates impaired right-hand performance. An IQ test was not administered; however, all other evaluation results were within normal limits. What academic implications are inferred by these results?
   a. The student has impaired language functioning and will primarily require extensive academic assistance with reading, spelling, writing, and note-taking
   b. The student has impaired visual-spatial functioning and will primarily require extensive academic assistance with reading, spelling, writing, and note-taking
   c. The student has impaired language functioning, and will primarily require extensive academic assistance with math, nonverbal communication, science, and note-taking
   d. The student has impaired visual-spatial functioning and will primarily require extensive academic assistance with math, nonverbal communication, science, and note-taking

4. Which of the following treatments are recommended for managing Attention-Deficit/Hyperactivity Disorder?
   a. EEG biofeedback, sensory integration training, and parent counseling
   b. EEG biofeedback, sensory integration training, and removal of sugar and food additives
   c. Behavior management methods, stimulant medication, and parent counseling
   d. Behavior management methods, stimulant medication, and removal of sugar and food additives

Correct Answers: 1-A, 2-D, 3-A, 4-C
