INTRODUCTION

This handbook is designed for candidates seeking nurse aide certification in the Commonwealth of Virginia. It describes the process of applying for and taking the National Nurse Aide Assessment Program (NNAAP®) Examination. The NNAAP® Examination is made up of a Written (or Oral) Examination and a Skills Evaluation. It is necessary to pass both parts to be certified as a nurse aide in Virginia.

The Virginia Board of Nursing has contracted with Pearson VUE, a nationally recognized leading provider of assessment services to regulatory agencies and national associations, to administer, score, and report the results of the NNAAP Examination for the Virginia Nurse Aide Registry. Credentia works with Pearson VUE to schedule and administer the NNAAP Examination.

NATIONAL NURSE AIDE ASSESSMENT PROGRAM (NNAAP®)

The Nursing Home Reform Act, adopted by Congress as part of the Omnibus Budget Reconciliation Act of 1987 (OBRA ’87), was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the terms of this federal law.

The National Nurse Aide Assessment Program (NNAAP®) is an examination program designed to determine minimal competency to become a certified nurse aide in your state. The NNAAP was developed by the National Council of State Boards of Nursing, Inc., (NCSBN) to meet the nurse aide evaluation requirement of federal and state laws and regulations. Pearson VUE is the authorized administrator of the NNAAP in Virginia.

The NNAAP Examination is an evaluation of nurse aide-related knowledge, skills, and abilities. The NNAAP Examination is made up of both a Written (or Oral) Examination and a Skills Evaluation. The purpose of the NNAAP Examination is to test that you understand and can safely perform the job of an entry-level nurse aide.

EXAM OVERVIEW

The two parts of the examination process, the Written (or Oral) Examination and the Skills Evaluation, will be administered on the same day. You must pass both parts
in order to be certified and listed on the Virginia Nurse Aide Registry.

The Written Examination consists of seventy (70) multiple-choice questions written in English. Sample questions are provided in this handbook. An Oral Examination may be taken in place of the Written Examination if you have difficulty reading English. This is done by using an MP3 player. The Oral Examination consists of sixty (60) multiple-choice questions and ten (10) reading comprehension questions. If you want to take the Oral Examination, you must request it when you submit your Examination Application.

At the Skills Evaluation you will be asked to perform five (5) randomly selected nurse aide skills (hand hygiene will be tested by everyone). You will be given thirty (30) minutes to complete the five (5) skills. You will be rated on these skills by a Registered Nurse Evaluator. A complete listing of the skills is shown on pages 28 to 42. Please see pages 22–24 for what to expect at the skills examination.

See The Written (or Oral) Exam and The Skills Evaluation sections for more details about each part of the NNAAP Examination.

ELIGIBILITY

ELIGIBILITY ROUTES
You are eligible to apply to take the NNAAP Examination for certification as a nurse aide in Virginia if you qualify under one of the following eligibility routes.

E-1 NEW NURSE AIDE
   A. FIRST TIME TEST TAKER
   B. PREVIOUSLY FAILED ALL OR PART OF THE NNAAP EXAMINATION
You have successfully completed a Virginia-approved nurse aide education program within the last twenty-four months.

E-2 NURSING STUDENT
You are currently enrolled in an approved nursing education program preparing for registered nurse or practical nurse licensure, or enrolled in a program in the last 12 months. When completing your online application, you must upload an original letter on letterhead from the program director documenting that you are currently enrolled and have satisfactorily completed at least one (1) clinical course in the nursing program which includes at least forty (40) hours of clinical experience involving direct client care. The online application and letter must be submitted within 12 months of the date on the letter.

E-3 NURSING GRADUATE
You have completed a nursing education program preparing for registered nurse or practical nurse licensure. Verification of completion of a nursing program in the form of an official or certified true copy of a school transcript, in English, is required to be uploaded in Credential Management. Foreign trained RN and LPN applicants must also provide confirmation from CGFNS that their program meets the requirements of their home country. The required forms must be uploaded online when completing the application.

E-4 LAPSED CERTIFICATE HOLDER
You were previously certified in Virginia as a nurse aide but your certification has expired. You must also have completed a renewal or reinstatement application with the Board of Nursing within the past year. For clarification, call the Board at 804-367-4639.

ONLINE REGISTRATION AND SCHEDULING

Online registration is quick, convenient and an environmentally responsible way to register for your examination. This process will eliminate the transit time associated with mailing a paper application.

After completing a Virginia state-approved training course or your application has been approved by the Virginia Board of Nursing to test, your name will be sent to Pearson VUE. You will receive an email informing you to complete the application process.

First-time users are required to create an account and complete all required demographic information. Step-by-step instructions will lead the candidate through the rest of the examination reservation process.
ADDITIONAL INFORMATION MAY BE NEEDED FROM CANDIDATES

If you have ever had a criminal conviction, been denied certification/licensure in Virginia or another state, had action taken against your certificate/license in Virginia or another state, or have a mental, physical or chemical dependency condition that could interfere with your ability to practice, you must indicate such history on your online application. Failure to reveal this information is considered falsification of an application and grounds for denial of certification or disciplinary action by the Board of Nursing even after successful completion of the NNAAP.

You must supply additional information about your criminal convictions, other state actions, or conditions that could interfere with safe practice.

If you have a criminal conviction, you will need to upload the following information for review by the Board:

- A certified copy of all conviction order(s) from the court(s);
- Evidence that all court ordered requirements were met (i.e., letter from the probation officer if on supervised probation, paid fines, restitution, etc.) for each conviction;
- Letter from you explaining the facts and circumstances leading to the criminal offense; and
- Letters of support from your employers.

If you had previous action taken against you or been denied a license or certification, you will need to upload the following information for review by the Board:

- Explanation of the action that was taken (where & when it occurred, details leading to the complaint/action taken)
- An official, certified copy from the regulatory authority of the final Order outlining the outcome of the action taken

If you have a mental, physical, or chemical dependency condition that could interfere with practice, you will need to upload the following information for review by the Board:

- Evidence of any past treatment related to the condition (i.e., discharge summary from inpatient and/or outpatient treatment);
- Letter from currently treating health care providers addressing diagnosis, treatment regimen, compliance with treatment, and ability to practice safely;
• A letter from you explaining circumstances of your condition and ongoing efforts to function safely; and
• Letters of support from your employers.

Please note that although these circumstances may be grounds to deny an applicant, it does not mean the Board of Nursing will deny your application for certification. A delay in testing should be expected and sometimes a meeting with the Board is required to determine approval for certification by examination.

THE SKILLS EVALUATION

WHAT TO EXPECT

SETTING

The Skills Evaluation is set up to resemble an actual caregiving situation. The Skills Evaluation area will look similar to your work setting. It will have all the equipment necessary to perform the assigned skills. The Skills Evaluation will be administered by a Nurse Aide Evaluator. Before your skills evaluation begins, the evaluator will show you where equipment is located and answer questions about operating the equipment. Please arrive 30 minutes early. Test times are approximate. Please plan to spend the day. See pages 28-43 for the complete skills listing.

WHO WILL ACT AS A CLIENT?

The part of the “client” will be played by a candidate who volunteers to act as an elderly person. While you perform the skills, speak to the candidate volunteer as you would speak to an actual client in a nurse aide work setting. You are encouraged to speak to the candidate volunteer not only because it is part of quality care, but also because it will help you to relax as you perform the skills. Please note, you may not receive help from anyone during the Skills Evaluation, and the candidate and the client must speak to one another in English so that the evaluator can understand and correctly score the evaluation. If either candidate gives help or receives help during the test, or the client and candidate are communicating in a language other than English, the test will be stopped.

CANDIDATE VOLUNTEER REQUIREMENTS

You will need to act as a candidate volunteer for another nurse aide’s Skills Evaluation and play the role of a nursing home patient (client). The evaluator will give you verbal instructions that will describe how you should act in performing the role of the client.

You must wear your own flat, slip-on, non-skid shoes, a loose-fitting top with short sleeves that can be rolled up to the shoulder, or tank top, and loose fitting pants that can be rolled up. You will be required to put a gown on over your clothing. In no case may candidates remove clothing down to undergarments.

Prior to beginning the exam, you should inform the evaluator of any food or latex allergy or sensitivity to skin soaps or lotion. Any limitations to range of motion must also be communicated to the evaluator prior to the start of the skills examination.

For infection control purposes, you should not come to the test site with open areas/sores on the skin. Candidates with any open areas or sores on their skin should reschedule their skills test to a later date after their skin fully heals.

THE TASKS

The NNAAP Skills List contains all of the skills that you may be asked to demonstrate during the Skills Evaluation. Each skill represents a task that you will be asked to perform in your job and has been broken down into a series of steps.

A step that is highlighted in bold type is called a Critical Element Step. Critical Element Steps are important steps that must be performed correctly in order for you to pass the skill. If you leave out a Critical Element Step or do not perform a Critical Element Step properly, you will not pass the skill. However, if you perform only the Critical Element Step correctly in a skill, you do not automatically pass that skill. You must also correctly demonstrate enough steps to meet the passing standard (or cut score) for each skill.
Before your Skills Evaluation begins, the Nurse Aide Evaluator will give you an instruction card that will list the five (5) skills selected for you to perform. Hand-washing will always be one of the skills to be performed. The remaining four (4) skills are randomly chosen from the complete set of skills listings on pages 28 to 42 of this handbook. You are strongly encouraged to perform the skills in the order they are listed on the instruction card.

If you make a mistake, say so, and you will be instructed to tell the evaluator which step(s) is to be corrected and then to perform the step(s). You will not have to redo the entire skill, just the steps you wish to correct. There are, however, some exceptions to this rule. If you fail to put on gloves or take them off when it is required to do so and the evaluator reminds you to do so, for infection control purposes, then you will not receive credit for attempting to correct this step. If you wish to correct an order-dependent step (a step stating that an action should be performed before or after another step) and you fail to say when the corrected step should be performed, you will not receive credit for the correction.

Once you begin a new skill, you may not go back to correct a previous skill. The Nurse Aide Evaluator will not answer questions during the Skills Evaluation and will not tell you whether you performed a skill correctly. You may not receive help from anyone during the Skills Evaluation. If you do have any questions, please ask them before the Skills Evaluation begins.

One (1) of the four (4) randomly-selected skills will include a measurement skill (see the section below, Recording A Measurement, for more information regarding measurement skills).

You will be asked to decontaminate your hands (with hand sanitizer) before proceeding from skills performed on a live client to skills that are not. This is for infection control purposes and will not affect the results of your evaluation.

You must successfully complete five (5) out of the five (5) skills in the skill form to pass the Skills Evaluation. You will have thirty (30) minutes to demonstrate all five (5) skills.

When you have completed your skills evaluation, the evaluator will direct you to wash your hands. Although this will not effect your examination results, for the purposes of infection control, you must wash your hands.

**Recording A Measurement**

The NNAAP Skills Evaluation requires every candidate to perform at least one measurement skill, such as blood pressure, radial pulse, respirations, urine output, or weight. You will be given a special form, called a Recording Sheet for Measurement Skills, to write down, or record, the measurement. For example, if performing the Measures and Records Blood Pressure skill, you will write the complete systolic and diastolic pressures of your blood pressure reading in a box labeled Candidate Results.

On the following page is a copy of the recording sheet that will be used during the skills exam. The candidate must record his/her results in the Candidate Results box on this sheet. This sheet will be used to record the results of the following measurement skills:

- Measures and Records Blood Pressure
- Measures and Records Weight of Ambulatory Client
- Measures and Records Urinary Output
- Counts and Records Radial Pulse
- Counts and Records Respirations

**Tips for the Skills Evaluation**

- You will be expected to perform the skills as you would in a nursing home setting. When water is required, you must use running water. All candidates will be required to perform the Hand Hygiene skill. The evaluator will inform you after you have washed your hands for the first time that you should just tell him or her when you would wash your hands during your performance of the rest of the skills, rather than actually washing them for each skill. For all steps other than hand-washing, you must actually perform the skill in order to receive credit. You may not simply tell the evaluator what you would do for simulating a step. For example, you may not simply tell the evaluator that you would wash the client. You must actually demonstrate washing the client. You may not simply tell the evaluator that you would feed the client. You must actually demonstrate feeding the client.

- After you have introduced yourself to the client for the first time, it is not necessary for you to introduce yourself each time you begin a new skill.
• To receive full credit for a measurement skill, you must accurately make the required measurement and then write that measurement on the Recording Sheet for Measurement Skills. The evaluator will provide the Recording Sheet to you at the test site. A sample of the Recording Sheet is shown on page 26 of this handbook. You are encouraged to become familiar with the Recording Sheet before your scheduled test date.

• You must know how to operate both a standing and a non-digital bathroom scale and must know how to set both types of scales to zero.

• You **may not bring** any of your own equipment to the test site (i.e. transfer/gait belt).

• It is important for you to place the call signal within the client’s reach whenever you leave the client.

• *Where the word “client” appears, it refers to the person receiving care.*

FAILING
If you fail the Written (or Oral) Examination or the Skills Evaluation, your Score Report will provide you with information on how to re-take either or both parts of the evaluation. A new examination fee is required each time you re-take any part of the NNAAP evaluation. To reschedule either or both parts, log into Credential Management and schedule the required exam(s).

If you fail either part of the NNAAP Examination three (3) times, you will need to complete another training program and re-take BOTH parts of the NNAAP Examination, not just the part that was failed.
HOW TO READ A FAILING SCORE REPORT

If you do not pass the Skills Evaluation, you will receive a Failing Score Report. The score report will list the five (5) skills that you performed and a score of Satisfactory or Unsatisfactory for each skill. Any skill with an Unsatisfactory result is considered a failed skill. You must receive a Satisfactory result on all five (5) skills to pass the Skills Evaluation.

Use your failing Score Report as an aid in studying to re-take the Skills Evaluation. A failed skill will show the reason for the failure. You may not have performed the steps of a skill correctly, or you may have forgotten a step, especially a Critical Element Step.

The failing Score Report will list steps that were missed or incorrect—look for numbers printed directly under a skill marked Unsatisfactory. A list of all the skills and the steps needed for each skill can be found in this handbook. Find the skill you failed, and study the steps, especially steps listed as Unsatisfactory on the score report.

In the example on the following page, a candidate received a result of Unsatisfactory on the skill Hand Hygiene. The numbers 1, 5, and 10 printed below the skill refer to steps that were missed or performed incorrectly. To study for re-taking the Skills Evaluation, this candidate should turn to the Skills Listing in this handbook, look for the Hand Hygiene skill, and review all the steps, especially steps 1, 5, and 10.

THE REGISTRY

CHANGE OF ADDRESS OR NAME

The Virginia Board of Nursing requires that you inform them in writing of your correct address. In most cases it is permissible for an individual to provide an address of record other than a resident address, such as a post office box or a practice location address. In order to receive renewal notification and other correspondence from the Virginia Board of Nursing, you MUST inform the Registry about any changes in your name or address within thirty (30) days after any change is made.

A change of address may be made online at the time of renewal or at any time by written notification to the Board of Nursing. To change your address, you may:

- use the Change of Address or Name Form in the back of this handbook;
- send a separate letter to the Virginia Board of Nursing/Nurse Aide Registry informing them of the change. (If you are writing a separate letter, please be sure to list both the old information and the updated information, including your name, address, Social Security or certificate number, and telephone number.)
- email the Board at: nursebd@dhp.virginia.gov or do so online at: www.license.dhp.virginia.gov.

Please be advised that all notices and correspondence from the Board, including renewal notices, licenses, and other legal documents, will be mailed to the address of record that you provide. Failure to inform the Registry of an address change may jeopardize your timely receipt of these important documents.

If you change your name, you must provide appropriate documentation of that change when you notify the Board of Nursing. A copy of a marriage certificate, divorce decree granting you the right to resume your former name, or other court order is required.

RENEWAL

Your initial nurse aide certification is valid for two (2) years. At least thirty (30) days prior to the expiration date of your certificate, a renewal notice will be mailed to your last address on record with the Board of Nursing/Nurse Aide Registry requesting you to renew online at www.license.dhp.virginia.gov. You are required to personally attest that you have been employed for pay performing nursing-related
activities within the previous two (2) years. In order to be renewed and maintained on the Registry, you must meet the work requirement mentioned above or you will be required to re-take the NNAAP Examination to demonstrate continued competency.

Your nurse aide certification will expire if you do not renew it. It is your responsibility to renew your certification, regardless of whether or not you receive the renewal notice mailed from the Board office. If you do not receive your renewal notice by the middle of the month in which your certificate is due to expire, please contact the Board of Nursing at (804) 367-4515.

**DUPLICATE CERTIFICATE**
If you lose your Nurse Aide Certificate, you may request another copy from the Virginia Board of Nursing. A duplicate certificate must be requested in writing. Written requests must include your Nurse Aide Certificate number or Social Security number. There is no fee to obtain a duplicate copy of your Nurse Aide Certificate.

**LAPSED CERTIFICATION**
If you were previously listed on the Virginia Board of Nursing Registry and have been lapsed for more than 90 days, you MUST submit a reinstatement application and fees to the Board of Nursing. The Board will then determine if you also need to take the NNAAP examination to demonstrate competency for reinstatement.

Reinstatement applications with instructions may be obtained from the Board of Nursing website at www.dhp.virginia.gov/boards/nursing or by calling the Board office at (804) 367-4515.

**ENDORSEMENT**
If you are a nurse aide currently listed on another state’s nurse aide registry, and you are seeking certification on the Virginia Nurse Aide Registry, you **MAY NOT** need to test. Endorsement applications are available for on-line submission through the Virginia Board of Nursing’s website at [www.dhp.virginia.gov/boards/nursing](http://www.dhp.virginia.gov/boards/nursing).

The length of the endorsement process depends on the state to provide verification that you are a certified nurse aide and meet requirements similar to those for initial certification in Virginia.
