All exam questions, each form of the exam, and all other exam materials are copyrighted by and the property of Pearson VUE. Any distribution of the exam content or materials through any form of reproduction, or through oral or written communication, is strictly prohibited and punishable by law. Anyone who removes or tries to remove exam material or information from the test site will be prosecuted to the fullest extent of the law.

ACCEPTABLE FORMS OF CANDIDATE IDENTIFICATION

Candidates must present two (2) forms of current signature identification. The primary identification must be government-issued and photo-bearing with a signature, and the secondary identification must contain a valid signature. Identification must be in English. Note: Candidates are not permitted to enlist another individual (proxy) to test on their behalf.

**PRIMARY ID (PHOTOGRAPH AND SIGNATURE, NOT EXPIRED)**

- Government-issued Driver's License
- U.S. Dept. of State Driver’s License
- U.S. Learner's Permit (with photo and signature)

Pearson VUE does not recognize grace periods. For example, if a candidate’s driver’s license expired yesterday and the state allows a 30-day grace period for renewing the ID, the ID is considered to be expired.

PALM VEIN RECOGNITION TECHNOLOGY

Candidates will be required to have their palm scanned using Palm Vein Recognition technology. Pearson VUE’s company-owned sites are equipped with advanced palm vein recognition technology, which captures and recognizes the unique patterns in a candidate’s palm veins using non-intrusive, near-infrared scanning technology.

New candidates are enrolled in the biometric system during their first test center admission; their identities are then automatically verified when candidates take and return from breaks, and again when they test in the future at any biometrically equipped location worldwide. Palm vein recognition is secure, privacy friendly, fast, highly accurate, and virtually impossible to forge, and has replaced digital fingerprinting to become the standard biometric technology for candidate identification.

SCORE REPORTING

Pearson VUE will provide you with your official examination results on the day of testing. If you lose your examination results and need to obtain another copy, please complete the form in the back of the handbook and submit your request for a duplicate score report. Examination results will not be given over the telephone nor can they be sent to your employer or to another third party.

EQUATING AND SCALING

There are multiple versions of each of the licensing examinations. These versions are known as forms. Although all forms of an examination are developed based on the content outlines, the difficulty of the forms of an examination may vary slightly because different questions appear on each form. To ensure that no candidate is put at an unfair advantage or disadvantage due to the particular form of an examination that he or she is given, a statistical procedure known as equating is used to correct for differences in form difficulty.

For example, in an examination with two (2) forms, Form A and Form B, the state licensing agency determines that answering 30 questions correctly on Form A demonstrates the minimum amount of knowledge necessary to be licensed. It is further determined through the equating process that Form B contains slightly more difficult questions than Form A; therefore, answering 30 questions correctly on Form A would indicate the same level of knowledge as answering only 28 questions correctly on Form B. Under this set of circumstances, a score of 30 questions correct would be used as the passing score on Form A whereas a score of 28 questions correct would be used as the passing score on Form B.

A second statistical procedure known as scaling is used to derive the numerical score to report for each candidate. Scaling is used to place a raw score on a common reporting scale on which each scaled score represents a given level of knowledge regardless of the difficulty of the form on which the raw score was achieved.

To illustrate how scaling works, suppose that in the examination example used above, the state licensing agency decides to use a score of 500 as the passing score for reporting purposes. (Note that the score selected to be used as the reported passing score is not related to, and has no bearing on, the difficulty of the examination.) Based on the information provided above, a raw score of 30 on Form A would translate to a scaled score of 500; a raw score of 28 on Form B would also translate to a scaled score of 500 since a raw score of 30 on Form A represents the same level of knowledge as a raw score of 28 on Form B.

SCALED SCORE

The passing scores of the licensing examinations were set by the Pennsylvania State Board of Cosmetology (in conjunction with Pearson VUE) after a comprehensive study was completed for each examination. Raw scores are converted into scaled scores that can range from 0 to 100. To avoid misuse of score information, numeric scores are only reported to failing candidates. The scaled score that is reported to you is neither the number of questions you answered correctly nor the percentage of questions you answered correctly. With a passing score of 75, any score below 75 indicates how close the candidate came to passing, rather than the actual number or percentage of questions the candidates answered correctly.

PASSING

After you have successfully passed the Examination (and have completed the required hours), the State Board will issue your license within 10-15 business days. If you have not received your license in the mail within ten (10) business days of passing the examination, please contact Pearson VUE at 866-638-7502. If you have changed your address from the time you submitted your application, you must notify Pearson VUE prior to the printing of your license.

Note: If you have passed the exam under "Early Testing," the results will not be sent to the state until the final transcripts are received.

To verify whether or not a license has been issued, an applicant may search the State’s web site using the following link: www.licensepa.state.pa.us

FAILING AND RETAKING AN EXAMINATION

If you fail the Examination, your Score Report will provide you with information on how to re-take the examination. A new examination fee is required each time you re-take the examination.

To schedule a retake examination, use the web reservations on the Pearson VUE web site at http://www.pearsonvue.com/pa/cosmetology. Reservations for reexamination cannot be made at the test center, and you must wait twenty-four (24) hours from your failed examination before making your reservation.
