INTRODUCTION

This handbook is designed for candidates seeking the Nursing Assistant Certification, Medication Assistant Endorsement Medication Aide in Washington. It describes the process of applying for and taking the Medication Aide Examination.

It is important that you read the entire handbook and keep a copy of it until you are notified of your examination results.

The purpose of the Medication Aide Examination is to ensure that individuals who administer medication have the basic knowledge and skills to perform their duties.

The Washington Department of Health has contracted with Pearson VUE®, a nationally recognized leading provider of assessment services to regulatory agencies and national associations, to administer the examination. Pearson VUE along with the National Council of State Boards of Nursing (NCSBN) will develop, score, and report the results of the Medication Aide Examination to the Washington Department of Health.

Completion of this medication aide examination and endorsement through the WA Department of Health will qualify a nursing assistant-certified with a medication assistant endorsement for consideration of employment to administer medications and nursing commission-approved treatments to residents in nursing homes, under the direct supervision of a designated registered nurse.

MEDICATION AIDE EXAMINATION

The Medication Aide Certification Examination (MACE) is a national medication aide certification examination typically administered to nurse aides who choose to receive additional training to become certified medication aides. NCSBN develops the MACE examination and administers the computer-based exam with the contractual assistance of Pearson VUE.
EXAM OVERVIEW

The Medication Aide Examination consists of fifty (50) multiple choice questions written in English. An examination outline is located on the following pages. The examination will be administered on an electronic testing system. The examination is scored immediately after you complete it, and you will leave the test center with your score report.

For example, if a candidate’s driver’s license expired yesterday and the state allows a 30-day grace period for renewing the ID, the ID is considered to be expired.

**EXAM PROCEDURES**

Candidates should report to the test center thirty (30) minutes before the examination and check in with the test center administrator. The candidate’s identification will be reviewed.

You will have your palm vein patterns (and fingerprint) recorded when you arrive at the testing center to check-in for your exam. Your pattern will be matched when you return to the testing room after a break. Your palm vein patterns will also be compared with those of other candidates to allow Pearson VUE to find people who may have tested under multiple names or identities. When the reader scans your palm, the information about your vein patterns is stored as a digital template. After you finish taking your exam, the template is sent via encrypted transmission with your test results to Pearson VUE. Your vein pattern template is stored separately from other information about you in the system.

After the manager gathers your information, he or she will take your photograph, which will be printed on your score report.

Candidates are required to review and sign a **Candidate Rules Agreement** form. If the **Candidate Rules Agreement** is not followed and/or cheating or tampering with the examination is suspected, the incident will be reported as such and the appropriate action will be taken. The examination fee will not be refunded, the exam may be determined invalid, and/or the state may take further action, such as prohibiting re-tests for a designated amount of time.

After registration, the test center manager will assign you a seat and assist you with the testing unit. You will have an opportunity to go through a tutorial on the testing system. The time spent on the tutorial will not reduce

*Continued next page*
the examination time. The examination administrators will answer questions, but candidates should be aware that the administrators are not familiar with the content of the examinations nor with the state’s licensing requirements. Examination administrators have been instructed not to advise candidates on requirements for licensure. Candidates may begin the examination once they are familiar with the PC. The examination begins the moment a candidate looks at the first examination question.

You will be given two (2) hours to complete the examination. After the examination time has expired, the testing unit will automatically turn off. Under no circumstances will you be permitted to work beyond the allotted time. Official scoring of your examination will take place immediately. You will leave the test center with your official score in hand.

**REVIEW OF EXAMS**

For security reasons, examination material is not available to candidates for review.
